

Charity Golf Tournament

2011

ROBERTO BAZZONI

ONLUS

Honouring a memory... and a mission

Dear Friends,

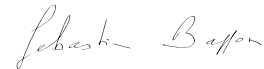

This year, we are celebrating our Charity's 10th annual Golf Tournament, and this gives the event a very special flavour. It means that, for ten years in a row, a number of people have gathered for a good cause, on an occasion where charity and fun go happily together. Thank you for continuing to support us!

The fight against AIDS in Zimbabwe is our main project and we are now treating 1,924 patients affected by AIDS. This number keeps growing, whilst the general situation of the country is far from improving. In Zimbabwe, the winds which hopefully should bring freedom to many countries in North Africa are not blowing. The old elite continues to cling to power and, for the time being, there is no hope of change.

Nevertheless, we help as many people as we can during this difficult time, waiting for a change for the better which, hopefully, is not too far away.

Thank you again for being here. Your presence is a sign of your involvement in a worthy cause.

We and our 1,924 patients need your support. Thank you very much!

SEBASTIANO BAZZONI
CHAIRMAN - ROBERTO BAZZONI ONLUS

Story from the ground:

Luisa Guidotti Hospital, Mutoko, Zimbabwe

By Dr. Carlo Spagnoli

“As many other patients in the Zimbabwe of today, Evelyn was neglected for weeks after falling sick with peritonitis, attending several clinics in vain before arriving at Luisa Guidotti Hospital with a life-threatening purulent peritonitis and intestinal obstruction.

Her face was drawn and suffering, the distinctive face of a sufferer of peritonitis. Her abdomen was grotesquely swollen, tender, distended by litres of pus accumulated inside the abdominal cavity. Even her breathing was impaired. Evelyn was clearly scared of dying, her eyes showed her last undying hope for survival. Nevertheless, she was controlling her feelings and giving us a great lesson in courage as she faced imminent death....

Her chances of survival, even after the operation, were less than 10%, due to the delay in getting to the Hospital.

However, Evelyn survived the operation, and slowly regained strength and mobility, first in bed and later moving to the garden, supported by the loving care of her Aunt (she is one of the many AIDS orphans...). She was still skin and bones.

It took two weeks to see her beautiful smile flourishing again, and a month to regain some weight. When she came for a check-up one month after the operation, she was the smiling and attractive girl she had been before falling so sick, full of joy and hope for her life. Her smile was absolutely the greatest reward for me and my surgical team!

A story of tragedy and courage in the Zimbabwe of 2011... I hope Evelyn's success story shows you how important your support is. We have to continue the difficult fight to keep the Luisa Guidotti Hospital up and running... but we can't do it without the support of so many good friends abroad!

Thanks, and God bless you all.”

Evelyn before her operation

Evelyn after her operation
